Optical Thin Film Coating Technician II

ISP Optics Corporation is looking for enthusiastic team players in the field of precision optics manufacturing. In this position you will learn to how to prepare optics and operate a state-of-the- thin film coating chamber to manufacture optics for infrared (IR) optical components. This is a great opportunity to learn high-tech, high-precision skills. ISP Optics is known in the industry as The Infrared Company, with all necessary manufacturing capabilities performed in-house. We have been in business for over 25 years, and we have room for you to develop your career. It is the perfect opportunity to join a company whose industry is consistently growing. We will train you and help you integrate smoothly into YOUR new career. We are located on the Metro North Line (a 5 minute walk from the Irvington Station).
